

Request for Council Action

Originator Public Works	Item Approve Easement Agreement with Normandale Community College
Agenda Section	Date 6/2/2014

Description

At the August 19, 2013 Council Meeting, Council acknowledged that W 98th Street from Normandale Boulevard to France Ave S was to be included in the 2014-102 PMP Overlay Project.

At the February 24, 2014 Council Meeting, Council adopted Resolution No. 2014-22 approving the plans and specifications for the 2014-102 PMP Overlay Project.

Discussions with Normandale Community College concerning the northeast corner of the intersection of W 98th St and Collegeview Road determined that, although the project could proceed within the existing right of way, a much better result for the sidewalk and traffic signal would result with additional space. Normandale Community College has agreed to grant the City an easement for sidewalk, bikeway, and utility purposes as shown on the attached exhibit.

Requested Action

Staff recommends approval of the easement agreement with Normandale Community College.
